

Care Calling – December 02

We have a few people in our group who love to talk on the phone! We divided our community roster (about 60 people) into 5 lists. We recruited our “telephone happy” members to call everyone on their list twice a month and ask for some prayer requests that the caller and/or the community can be praying for. If no one is home then leave a friendly message on the answer machine.

It is amazing what happens with some of these calls. Many lives have been touched because the call came at a difficult or crucial time. Sometimes, if the spirit leads, we pray with the group members on the phone.

Overall, it helps build a “caring” spirit in our community. It also encourages people who have not attended in a while to get back in the groove!
